**Theme:**  
NDE for Enhanced Safety,  
Quality & Productivity

# WELCOME TO SINGAPORE

**Dr Norikazu Ooka**  
President

Asia Pacific Federation for NDT

The Asia Pacific Federation for Non-Destructive Testing (APFNDT) was established in Mumbai in India in November 2013 to meet the demands from the providers and users of NDT in the Asia Pacific Region in promoting the application of NDT and for encouraging research and development in NDT techniques. The main activities of APFNDT covered among others education, qualification and certification, training, standardization, etc., for the whole spectrum of industry. As President of APFNDT, I would like to work closely with all members and societies not only in Asia Pacific region but also in other regions. On this occasion, I would like to invite all APFNDT colleagues and their societies' members to the 15th APCNDT in November 2017 in Singapore.

**Mr Babu Sajeesh Kumar**  
President  
NDT Society Singapore

On behalf of the Non Destructive Testing Society Singapore (NDTSS), I sincerely welcome all of you to the 15th APCNDT 2017. This is a remarkable event for NDTSS which is celebrating it's 20th year since it's formation in 1997. As a full member of ICNDT & APFNDT, NDTSS welcomes all delegates from the international community & members of sister NDT organizations to this event

We look forward to speakers from around the world to share, contribute and enrich the technical, scientific and cultural knowledge at this conference. We also welcome NDT equipment manufacturers/suppliers from around the globe to show case their inventions and innovations to a wide range of customers who will be gathering at this event.

Singapore is a multi-racial country which offers a blend of east & west culture to delight all delegates to this dynamic and vibrant city. With an active economy and a strong focus on scientific research in the field of aviation, oil & gas, marine & offshore, we assure you of the rich papers contributed from around the region. We will do our best to make your stay a pleasant and memorable on in this little red dot island.

**Mr Sze Thiam Siong**  
President  
Asia Pacific Conference  
for NDT

The Asia Pacific Conference has been, is and will always be an important platform for us NDT practitioners, researchers and academicians to seek ways and means to continue develop, enhance and collaborate for the future progress of NDT as we strive to push the technological frontiers further. It is therefore crucial that this tradition be continued in a manner that will bring greater recognition and high stature for all NDT professionals.

I would like to extend our warmest and cordial welcome to all delegates to Singapore for this event in 2017. We believe with Singapore being the regional well known scientific and technological research and development hub, your participation at this eminent event will make this conference more prestigious.

We are confident that Singapore, with its diversity and richness in culture interspersed in a metropolitan city, will be able to offer you a more rewarding, enriching, fulfilling and holistic personal experience once you step onto our shoreline.

## Welcome to Singapore!

Well known for being a little red dot on the world map, Singapore is not to be underestimated as one of the leading vibrant cities in the heart of Asia. This multicultural city-state has a diversified range of lip-smacking delicacies that awaits friends from all over the globe. Apart from the plethora of good food, Marina Bay Sands integrated resort predominated most tourist attractions to emerge as Singapore's newest landmark. This large iconic structure overlooks Gardens by the Bay, a new feature that evolved from Singapore's reputation as a Garden city, comprised 2 cooled conservatories - Flower Dome and Cloud Forest. So, don't miss this opportunity to come to Singapore to enjoy the beauty of our Garden city!
